**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with attorney for applicant, John R. Schaefer on 03/27/2008.

The application has been amended as follows:

10. **(Currently amended)** An electronic apparatus with natural convection structure, comprising:

a main body to be placed on a surface, said main body having a top surface and a bottom surface and having an airflow channel **formed by an inner wall extending from an exterior of said top surface to an opposite exterior of** said bottom surface, wherein said bottom surface has a curve structure; and

**at least a printed circuit board disposed in said main body, said printed circuit board having an opening, and centroids of said opening and said airflow channel being positioned at a same axis substantially vertical to said top surface and said bottom surface.**

19. **(Currently amended)** An electronic apparatus with natural convection structure, comprising:

a main body to be placed on a surface, said main body having a top surface and a bottom surface and having an airflow channel **formed by an inner wall extending from an exterior of said top surface to an opposite exterior of** said bottom surface, wherein said bottom surface has a curve structure;

**at least a printed circuit board disposed in said main body, said printed circuit board having an opening, and centroids of said opening and said airflow channel being positioned at a same axis substantially vertical to said top surface and said bottom surface; and**

a support device disposed on said bottom surface of said main body.

2. Claims 1 and 3-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: In response to remarks and claim amendments made in Applicant's Amendment filed on 02/01/2008, Applicant's argument is persuasive. **Claim 1** (similar to **claims 10 and 19**) states that the limitation "at least a printed circuit board disposed in the main body, said printed circuit board having an opening, and centroids of said opening and said airflow channel being positioned at a same axis substantially vertical to said top surface and said bottom surface;" in combination with "wherein said airflow channel is formed by an inner wall extending from an exterior of said top surface to an opposite exterior of said bottom surface." This limitations, in combination with other limitation as claimed in the

claim 1, was neither found to be disclosed in cited references, nor suggested by the prior art. Claims 3-9 depend on the claim 1. Claims 11-18 depend on the claim 10 and claim 20 depends on the claim 19. Amended claims have been considered and upon conclusion of a comprehensive search of the prior art, the office indicates that the claims, as amended, are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hung S. Bui whose telephone number is (571) 272-2102. The examiner can normally be reached on Monday-Friday 8:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Dean A. Reichard can be reached on 571-272-2800, ext. 31. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
